1. A special time and materials proposal was solicited by NPIC from [] to apply small modifications to six chip comparators. Equipment evaluation has determined that these modifications are necessary to increase the maintenance efficiency "down" time; thus savings in maintenance cost will be experienced immediately and increased operational time will be available.

2. It is requested that this miscellaneous services proposal be approved and a contract be let with [] from FY-1967 funds; FAN ACCOUNT NO. 7155-4100.
